RESIDENTIAL STYLE CABINETS

Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.
